

Announcing a change with your TDOCS software

November 14, 2005

Dear Doctor,

Bringing you superior products and services has always been our priority. That's why the news we're about to share is so positive!

TDOCS recently signed an agreement with Patterson Dental Supply – the nation's number one dental supplier. This partnership gives you special perks for transitioning to Patterson EagleSoft software, and a hassle-free conversion process.

While we have decided to no longer update your TDOCS software, rest assured, we will continue supporting the current version of TDOCS software at this time. The upgrade path will require a transition to Patterson EagleSoft with all of its many advantages.

Patterson Dental has over 128 years experience serving dental professionals nationwide. This trusted company partners with the leaders in digital radiography and patient education. Names like Schick, CAESY and many more all integrate seamlessly with Patterson EagleSoft. You'll also benefit from responsive support specialists dedicated to keeping your office up and running.

With Patterson's track record for success, we know your practice will be in good hands! For more information, please visit www.eaglesoft.net or call 1.800.294.8504.

Sincerely,

Santiago Fernandez
President
TDOCS Software

P.S. Watch your mail for exclusive benefits – just for doing business with the industry's best – Patterson Dental!
