Patterson EagleSoft and TDOCS Establish Referral Agreement

Leading practice management software company partners with TDOCS

EFFINGHAM, Ill. – (Nov. 14, 2005) – Patterson Dental has entered into a referral agreement with TDOCS practice management software of Lawrenceville, N.J.

This agreement provides an opportunity for existing TDOCS users to easily transition to Patterson EagleSoft software in upcoming months. Patterson has more than 128 years experience serving dental professionals nationwide and is the leader in seamless integrations for digital and patient education.

TDOCS President Santiago Fernandez says, “I am excited about the collaborative efforts with Patterson Dental. This partnership will provide a tremendous upgrade opportunity for my existing customers and provide them with an expanded technology offering. Patterson Dental is a trusted company and their size allows them to provide support at a local level which is just another benefit for these customers.”

Pam Hemmen, director of the Patterson Technology Center, says, “The entire Patterson support team, including Patterson Technology Representatives, support specialists and the training and conversion team, are equipped and ready to create a positive transition to Patterson EagleSoft for TDOCS users. This agreement expands the services and features that TDOCS customers will be able to implement in their practices.”

For more information about Patterson Dental or TDOCS, visit the Web site at www.eaglesoft.net or contact a local Patterson Technology Representative.
