SciCan Ultimate	Yes	No			
SoPro 595, 617, 717 and 717 Integrated A-Dec	Yes	Yes			
Progeny Vivid	Yes	No			

Note: “TV-out” functionality present on some cards is supported solely by the card manufacturer or a local hardware provider.

Note: Video Capture Cards are only needed for S-video and Composite intraoral cameras.

**USB** - Either Dazzle DVD Recorder Plus or the EVGA inDtube USB capture solutions; both have been tested in Eaglesoft versions 14 and 15 with both Composite and S-Video intraoral cameras, these allow video capture without the use of a video capture card.

**SOUND CARDS** - Any high quality sound card will work with Eaglesoft 10.0 or higher for voice

**CREATIVE LABS** - Sound Blaster Live! (Value Edition, MP3+, X-Gamer, Platinum) and Sound Blaster 16
